📍 Strada Rășinari 4, 032473 București

👤 SUMMARY

Full-Stack Software Engineer with 8+ years of experience building scalable web applications using React, Next.js, Node.js, Python, TypeScript, PHP, Shopify, WooCommerce, AI, and Web3 technologies. Passionate about developing secure, high-performance software with clean architecture, modern development practices, and a focus on delivering business value.

🏢 PROFESSIONAL EXPERIENCE

TechNova Solutions

Senior Full-Stack Developer

07/2022 – Present | Bucharest, Romania

- Led the development of scalable full-stack web applications using React, Next.js, Node.js, and TypeScript.
- Built RESTful APIs and microservices for enterprise platforms.
- Integrated AI features using Python and OpenAI APIs.
- Optimized application performance, security, and cloud deployments.
- Mentored junior developers and participated in Agile development processes.

Digital Commerce Labs

Full-Stack Developer

06/2019 – 06/2022 | Bucharest, Romania

- Developed Shopify and WooCommerce stores with custom themes and plugins.
- Built backend services using Node.js, Express, and Laravel.
- Designed responsive user interfaces with React and Tailwind CSS.
- Integrated payment gateways, inventory systems, and third-party APIs.
- Improved website performance, SEO, and conversion rates.

🎓 EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

University of Bucharest

09/2014 – 06/2017 | Bucharest, Romania

- Studied Computer Science with a focus on software engineering and algorithms.
- Completed coursework in Data Structures, Database Systems, Operating Systems, Computer Networks, and Web Development.
- Developed full-stack web applications using modern technologies.
- Participated in team-based software development projects using Git and Agile methodologies.

📁 PROJECTS

DermaIQ

AI-Powered Skin Disease Detection Platform

01/2024 – 05/2024

- Developed an AI-powered healthcare platform for skin disease analysis.
- Built the backend using Python and integrated machine learning models for image classification.
- Designed responsive user interfaces and secure REST APIs.
- Improved diagnostic accuracy through optimized image preprocessing and inference pipelines.

Face Swap

AI Face Recognition & Image Processing Application

09/2023 – 12/2023

- Developed an AI-powered face swapping application using Python and OpenCV.
- Implemented facial landmark detection and image blending algorithms.
- Optimized processing speed and image quality for real-time performance.
- Built an intuitive interface for seamless user interaction.

InnovateX Technologies

Software Engineer

08/2016 – 05/2019 | Bucharest, Romania

- Developed web applications using JavaScript, PHP, and Python.
- Built secure REST APIs and database-driven systems.
- Worked with MySQL, PostgreSQL, and MongoDB.
- Collaborated with designers and QA engineers to deliver high-quality software.
- Participated in code reviews and CI/CD deployment pipelines.

MERN Ecommerce Platform

Full-Stack Online Shopping System

03/2023 – 08/2023

- Built a scalable e-commerce platform using React, Node.js, Express, and MongoDB.
- Implemented authentication, payment integration, product management, and order processing.
- Optimized application performance and responsive user experience.
- Developed secure REST APIs and admin dashboard functionality.

Dating Platform

Social Networking & Real-Time Messaging Application

09/2022 – 02/2023

- Developed a modern dating platform using React and Node.js.
- Implemented real-time messaging, user matching, and profile management.
- Integrated secure authentication and media uploads.
- Enhanced user engagement through responsive UI and optimized performance.

Fashion E-commerce Store

Custom Shopify Theme Development

01/2022 – 05/2022

- Developed a custom Shopify storefront with responsive design.
- Customized Shopify Liquid templates and theme components.
- Integrated payment gateways and third-party applications.
- Improved performance, SEO, and user experience.

Blinkify

Blockchain Asset Management Dashboard

06/2022 – 08/2022

- Developed a Web3 dashboard using React and Solidity.
- Integrated Ethereum wallet connectivity and smart contract interactions.
- Built real-time blockchain data visualization.
- Focused on secure and intuitive decentralized application workflows.
